In consideration of my employment or my continued employment by International Business Machines Corporation or one of its subsidiaries or affiliates (collectively, "IBM"), which I acknowledge is employment at will, and the payment to me of a salary or other compensation during my employment, I agree as follows:

I will not, without IBM's prior written permission, disclose to anyone outside of IBM or use in other than IBM's business, either during or after my employment, any confidential information or material of IBM, or any information or material received by IBM in confidence from third parties, such as suppliers or customers. If I leave the employ of IBM or at the request of IBM, I will return to IBM all property in my possession belonging to IBM or received by IBM from any third party, whether or not containing confidential information and whether stored on an IBM owned asset or a personally owned asset, including, but not limited to, electronic data, electronic files, diskettes and other storage media, drawings, notebooks, reports, and any other hard copy or electronic documents or records. 2. (a) During my employment with IBM and for two years following the termination of my employment from IBM for any reason, I will not directly or indirectly within the Restricted Area solicit, or attempt to or participate or assist in any effort to solicit, any employee of IBM to be employed or perform services outside of IBM. For purposes of this Paragraph 2(a), "Restricted Area" shall mean any geographic area in the world in which I worked or for which I had job responsibilities, including supervisory responsibilities, during the last twelve (12) months of my employment with IBM. Also, for purposes of this Paragraph 2(a), "employee of IBM" shall mean any employee of IBM who worked within the Restricted Area at any time in the 12-month period immediately preceding any actual or attempted solicitation.
(b) I agree that during my employment with IBM and for one year following the termination of my employment for any reason, I will not directly or indirectly solicit for competitive business purposes any customer with which I was directly or indirectly involved as part of my job responsibilities during the twelve (12) months prior to the termination of my employment with IBM. This paragraph 2(b) does not apply to any IBM employee whose work location as reflected in IBM records is within the state of California.

I acknowledge that IBM would suffer irreparable harm if I fail to comply with Paragraph 2(a) or (b), and that IBM would be entitled to any appropriate relief, including money damages, equitable relief and attorneys' fees.

3. I will not disclose to IBM, use in its business, or cause it to use, any information or material which is confidential to any third party unless authorized by IBM. the safeguarding of information, and (c) IBM's corporate directives, including, without limitation, policies and information technology security standards issued from time to time as well as the IBM Business Conduct Guidelines as amended from time to time.

5. I hereby assign to IBM my entire right, title, and interest in any idea, concept, technique, invention, design (whether the design is ornamental or otherwise), computer programs and related documentation, other works of authorship, mask works, and the like (all hereinafter called "Developments"), hereafter made, conceived, written, or otherwise created solely or jointly by me, whether or not such Developments are patentable, subject to copyright or trademark protection or susceptible to any other form of protection which: (a) relate to the actual or anticipated business or research or development of IBM or its subsidiaries or (b) are suggested by or result from any task assigned to me or work performed by me for or on behalf of IBM or its subsidiaries.

If, by operation of law such right, title, and interest in Developments vest in IBM upon creation, I acknowledge that such right, title, and interest belong to IBM. Also, I hereby assign to IBM my entire right, title and interest in any such Developments that were or are suggested by or a result of any task assigned to me or work performed by me for or on behalf of any entity that IBM acquired or in which IBM purchased a controlling interest to the extent that any such right, title and interest is not already owned by said entity.

In the case of any "other works of authorship", such assignment or ownership shall be limited to those works of authorship which meet both conditions (a) and (b) above.

California Notice: For Developments subject to California law, notwithstanding anything above to the contrary, I understand that this assignment does not apply to a Development which qualifies fully under the provisions of Section 2870 of the California Labor Code. Further, I acknowledge that I will not use or cause to be used, any Excluded Developments in IBM’s business, research or development without a written or email authorization to do so from both my first and second line manager. For the avoidance of doubt, Excluded Developments shall not comprise any Developments that were or are suggested by or resulted from any task assigned to me or work performed by me for or on behalf of any entity that IBM acquired or in which IBM purchased a controlling interest, unless assignment of my right, title, and interest in the Development is governed by an agreement executed prior to my IBM employment.
I hereby identify any and all Excluded Developments which are not published in a searchable public database (e.g. United States Patent & Trademark Office). In the following table I have provided a brief non-confidential description that sufficiently identifies the Excluded Development (e.g. title of publication), the creation date of the Excluded Development, and to the extent my rights to the Excluded Development are governed by an agreement, the other named party to the agreement and the date the obligation terminates.

Intellectual Property Law Department; and (b) I will, on IBM's request, promptly execute a specific assignment of title to IBM or its designee, and do anything else reasonably necessary to enable IBM or such designee to secure a patent, copyright or other form of protection therefore in the United States and in other countries. In addition, I agree to promptly notify the IBM Intellectual Property Law Department in writing of any patent or patent application in which I am an inventor but which is not assigned by Paragraph 5 and which discloses or claims any Development made, conceived, or written while I am employed by IBM.I also agree to promptly notify the IBM Intellectual Property Law Department if, after I leave the employ of IBM, I am contacted by anyone or any entity outside of IBM regarding any transaction, legal or governmental proceeding, litigation or other legal dispute concerning or relating to any of the Developments assigned by Paragraph 5.

7. IBM and its licensees, successors, or assigns (direct or indirect) are not required to designate me as an author of any Development which is subject to Paragraph 5, when it is distributed, publicly or otherwise, or to secure my permission to change or otherwise alter its integrity. I hereby waive and release, to the extent permitted by law, all rights in and to such designation and any rights I may have concerning modifications of such Developments.

I understand that any rights, waivers, releases, and assignments herein granted and made by me are freely assignable by IBM and are for the benefit of IBM and its subsidiaries, licensees, successors, and assigns.

8. I agree that IBM, its services providers and other third parties authorized by IBM will collect, use, store, make available to those who have a need-to-know, and otherwise process my personal information to establish, maintain and terminate my employment relationship with IBM and for other legitimate business purposes, anywhere in the world. 9. The term “subsidiaries,” as used in this Agreement, includes any entity owned or controlled, directly or indirectly, by International Business Machines Corporation.

10. The term "employment at will," as used in this Agreement, means the employment at the mutual consent of both me and IBM. Accordingly, either IBM or I can terminate the employment relationship at will, at any time, with or without cause or advance notice. However, this clause does not relieve me of my responsibility to serve the notice period in accordance with my terms of employment, in the event of my resignation from the services of IBM.

11. This Agreement supersedes all previous oral or written communications, representations, understandings, undertakings, or agreements relating to the subject matter hereof, except as expressly agreed otherwise by IBM in writing upon my hire or transfer of employment to IBM. COVID-19: IBM Initiatives for Employees and Communities

As we navigate the COVID-19 pandemic, IBM has taken a series of initiatives to help and support our employees and their family members in this challenging environment. The health and safety of IBMers, partners, and clients is our top priority. Below is a view of some of our key initiatives to fight the pandemic:

Employee Well-being and Safety

- **Vaccination for all IBMers:** Vaccination camps will be opened (in line with Government regulations) in all major cities with IBMer populations. IBMers and their family members will have the option of getting vaccinated at hospital centers or camps at selected IBM locations. The vaccination program is expected to start in mid-May.
- **Dedicated 24x7 medical helpline:** IBM has launched a dedicated helpline through Portea for a variety of services including doctor consultation, medical / home care services, and testing services.
- **Emergency Transport for Medical Needs:** We are offering an emergency transport facility 24x7 for medical requirements for both, employees and their immediate family members who are COVID-19 positive (for transport to a medical facility) and those who are COVID-19 negative (for procuring medical supplies or attend to impacted family members).
- **Additional Insurance Coverage:** IBM is also providing additional insurance coverage for each insured employee and their covered dependents (spouse and children) for up to Rs. 5 Lakhs per member covered.
- **Medically Supervised Quarantine Facilities in Hotels:** We have worked with Apollo Hospital group (national chain in India) to offer medically supervised "step down" facilities at designated hotels in every major city where IBMers and immediate family members can quarantine in case it's not feasible at home.
- **Oxygen Concentrators for IBMers:** We are procuring 500 oxygen concentrators for IBM employees and their families. These concentrators will arrive in India later this week.

Mobilizing the Collective Power of IBMers

- **IBMer Volunteer COVID-19 Squads:** We have organized squad groups staffed by IBM volunteers to take service requests and match them to verified sources of available resources - hospital beds, ICUs, oxygen requirements, ambulances, and medicines. With over 1000 volunteers already signed up, this is really making a difference to quickly triage requests and ensure that needs are matched to resources available nationally.
- **Plasma Donation Drive:** We have launched a Plasma donation drive, where employees can donate plasma. They can also register if they need plasma.

- **Mental Health:** We have set up several employee support groups across cities to provide employees with a platform to discuss issues, challenges, concerns, and coping mechanisms such as managing stress, staying active, and promoting self-care.
- **Donation Drive:** IBM has partnered with United Way of India to drive an employee giving campaign. Employees can donate financially to the NGO and they in turn are working with several partners at the ground level to provide critical and emergency care for the community.
- **Volunteering Opportunities:** IBMers are volunteering to become first responders on Covid-19 helplines through a collaboration with prominent NGOs Jeeva Raksha Trust and Project StepOne.

Given the dynamic pandemic situation, IBM is constantly revising and updating any initiatives it has put in place to respond to the pandemic, And any of these programs and policies may be changed or withdrawn by IBM at its sole discretion. Please reach out to your HR contact to understand the current measures in place at IBM.

Impact of COVID-19 on environment

Radha, a seven year old girl was as usual sitting near the window pane of her room, along with her family. Her father was busy watching the news. Her country has been under lockdown from past one month due to COVID-19 pandemic., as she gazed outside, the sight of birds chirping, squirrels squirting, butterflies fluttering their wings, amazed her, as this was not something she used to see everyday. As her tiny little eyes, catched every glimpse of the happenings outside the window, the news of that ozone hole no longer exists took the limelight; to which her father exclaimed "The nature is healing herself" leaving Radha utterly confused.

Had this pandemic not hit the earth, the things might have been different. Analysing the above situation, the following questions may arise; What constitutes our environment? How this COVID-19 originated? How is man responsible for the damage and emergence of new epidemics? How strong is this effect of viruses on our environment, what are its aspects? Is there any possible solution to mitigate the scenario in such a way that we become future ready in sustainable manner? etc

Environment in lucid language involves the surroundings in which any organism lives. Every species on this earth is completely dependent on the immediate surroundings for food, shelter et needs. So a good environment is something indispensable for us.

The Corona viruses or the corona virus disease (-19) (COVID-19) as we for all know is one of the most widespread zoonoses, which led to 1.5 million deaths in less than a year.

The root cause of this virus as suggested by experts seems, to the transmission of a viral organism from horse shoebats to humans., the very reason behind this jump being the excessive destructive policies of human race leading to destruction of the animal habitats, and putting them in close proximity to species which carry viruses., thus becoming an easy target.

As, the countries today grapple to vaccinate their populations, against this virus. It is important for us to analyse the stringent impact this virus has over our various aspects of environment; which are as follows:-

POSITIVE IMPACTS

:-1) Reduction in air pollution: As almost all the countries, used lockdowns as an method to stop the spread and flatten their cases curves, this lead to a significant reduction in air pollution, as there was zero vehicular

movements, and temporary shutdown of industries and construction activities

for example: According to the recent reports by environmental organisations like (UNEP) etc have claimed that there was a 25% decrease in the global CO_2 emissions in the whole world as pandemic hit it, similar trends were observed for nitrogenous emissions

-:- Freshwater quality: As the pandemic forced the government to shut down its factories and industries, there was no seepage / discharge of the chemical laden untreated water into rivers, ponds, streams, thus giving the aquatic life some happy moments, and replenishing the water quality.

for example: A lake in Italy was found to have been dead, for many years, but as the pandemic took toll on industries and polluting machineries the lake, gathered much more freshwater and its quantity and quality was astonishing

-. Wildlife is flourishing: As, Mahatma Gandhi ji truly said; "To my mind, the life of a lamb is no less precious than that of a human being". But the destructive minded, with which humans have gained control on the entire earth, has led to the extinction of N-numbers of species and [redacted] of as a result animals have lived in fear, But this pandemic, just man in the four walls of his house, and left open spare, for animals to cherish their very own earth.

for example: the olive turtles were seen in large numbers on the coastal beaches of the state of Maharashtra in India, a usually rare sight.

- Vegetation growth: As vehicles, emitting smoke and causing pollution are off, and their engines no longer suffocate plants, the growth of healthy plants is seen, as the air quality improves, the plants unwind their leaves and replenish in best possible manner.

As each coin has two sides, now analysing the negative impacts as follows:-

→ Increasing use of plastic: The pandemic has led the way for us to this situation, as earlier it was humans who choked the earth with plastics, now its nature in form of pandemic, that has covered the man in personal protective equipment (PPE) kits. In addition the medicine bottles, injection vials, are made up of polystyrene and glass which take thousands of years to degrade and keep end up by lying 400-500 years as it is in the soils, thus causing great havoc.

→ Loss of lives: As every single species of organisms inter-related to each other in an environment and have a specific role to play according to their ecological niche, this pandemic has led to the loss of rare life in huge amounts, being contagious and can spread from humans to animals for example: Those kittens were tested positive for COVID-19 in Chennai, and many lions have been also tested positive.

WASTE MANAGEMENT CRISIS: the earth already clothes with huge dumps of garbage, litter and sewage waste floating in natural habitats, the waste management practices have become a cause of concern, as the pandemic has led an increase in the amount of medical waste being generated, so the garbage contaminated with medical waste, if not treated properly, becomes a cause of concern for soil, water & pollution and can lead to disease outbreaks in environment.

Now as humans are analysing the impacts in our environment as follows.

SOCIAL IMPACT: As we say human have a profound social environment and are social animals; This pandemic has deeply impacted this environment, as it has affected every fragment of society, leading to an increase in social crisis like inequality, exclusion, discrimination, unemployment, hence disturbing the already disturbed social environment equilibrium.

POLITICAL ENVIRONMENT IMPACT: This pandemic has almost suspended the good legislation procedures, as the leaders struggle to make new legislations to tackle this new menance.

ECONOMIC ENVIRONMENT IMPACT: As the global markets are shut, and the supply chain of goods have been disrupted due to restrictions and lockdowns, the world faces hard to recover from loss in economic environment.

ETHICAL IMPACT :- Today as work from home be become the new normal, the humans have understood the importance of the time they need to give to their their family members, the importance of social distancing and maintain health hygiene, is realised, the people who realise, rarely washed their hands now do it everytime, the touch unfriendly surfaces.

OTHERS - As mentioned in Bhagvat Gita, "Whatever happened happened for the good, what ever is happening is happening for the good and whatever will happen, happen for the good". It has made the whole human race, realise that pademic is a warning sign from nature to act on climate change.

As rightly said by Plato; "A need or problem, encourage creative efforts to meet the need or solve the problem".

so on way forward, one must be aware that it the mankind, who accounts for a major portion of share in damage, that has been done to mother nature;. It is our non sustainable reckless policy of development that has led to addition of burden on an already ~~overbur~~ number ship.

Some steps, to make sure, that in future, nature doesn't take revenge are introduction of 'Production linked incentives' schemes (PLI), for industries, to start using ~~recycled~~ renewable methods, for production, and shutting the way

out of for polluting machineries, and since a country good waste management practices, reducing, reusing and recycling the plastic at ~~generation~~ already generated, moving towards cleaner and eco degradable methods of protective gears like gloves, etc PPE etc and doing our best possible bcz day to make this place and our earth a better place to live. etc.

At last guest Radha, witnesses the same scenes even after the her country reopens, in the post pandemic era.

PLACEMENT AND CAREER GUIDANCE WORKSHOPS

S.C.D. Government College, Ludhiana in continuation with its over hundred years legacy of quality education, career guidance and assured placement record has recently conducted several placements drives at its campus.

November 17, 2022: SCD Govt. College, Ludhiana, in collaboration with District Bureau of Employment & Enterprises (DBEE), Ludhiana, organized a workshop on "Self-Employment/ Entrepreneurship/ Start-Ups", under the guidance of Mr. Amit Kumar Panchal (IAS, Additional Deputy Commissioner (Rural) Cum CEO, DBEE, Ldh.). Dr. Tanvir Likhari, the Principal of college welcomed the guest. Dr. Sajla, the convenor of the placement cell introduced the speakers. The Keynote speakers of the event, Mr. Navdeep Singh (Deputy CEO, DBEE, Ldh.) and Dr. Arvind Dhingra (Executive Director, STEP, Ldh.) interacted with around 200 students, who attended the seminar about schemes like 'StartUp India' and 'PMGEP'. The students got to know about the functioning of DBEE, Ludhiana.

This was not the end of college's endeavour at placement and employment. On February 3rd, 2023, the college welcomed Recruitment Manager, Reliance Jio, State of Punjab who encouraged students for part-time and full-time job. He enlightened the collegiates about the job market, emphasizing how job experience alongside their degree education will render them experienced and not 'freshers'. This will give them a competitive edge and allow them to gain quick employment at Reliance and in other industries. The response of the students in all these colloquiums were enthusiastically positive.

Another placement drive for graduate trainees was conducted by HDFC Life in college on February 4, 2023. Around 40 students applied for the post. 3 students were selected for the post of graduate trainees.
